This day, I discovered Heaven, our God is Love
And He loves us so immensely! Do listen!
This day, I discovered Heaven, our God is Love
And He loves us so immensely!

Many lovely things are there in this big wide/world
The stars, the meadows and the trees,
The flow'rs of many colours...most wonderful of all do you all know what it is?
It's called 'great love', most wonderful of them all: the love of my great dad,
the love of my sweet mother, of kids, of husband and wife...
All these are true love'...

But then if this 'great love' is the best thing that does exist here on our planet
So what will God's love be like? He created this 'great love'.
But then if this 'great love' is the best thing that does exist here on our planet
So what will God's love be like? He created this 'great love'. Ahhh...

This day, I discovered Heaven, our God is Love
And He loves us so immensely. Do, listen!
This day, I discovered Heaven, our God is Love
And He loves us so immensely!

Yes, it's quite a pure joy that lifts us up to Heaven,
That goes up high, straight up to God
And I am sure, with no doubt, deep down within my very soul:
God loves me very much!
For Him I truly can be, for Him I am important
I feel as if I am a king!
And so I am for you all, I want to tell the whole wide world, with my life I will sing:

But then if this 'great love' is the best thing that does exist here on our planet
So what will God's love be like, He created this 'great love'?

But then if this 'great love' is the best thing that does exist here on our planet
So what will God's love be like? He created this 'great love'.

But then if this 'great love' is the best thing that does exist here on our planet
So what will God's love be like, He created this 'great love'? Ahhh...

This day, I discovered Heaven, our God is Love
And He loves us so immensely. Do listen!
This day, I discovered Heaven, our God is Love
And He loves us so immensely!
