

Let's sing together

Title: **May they all be one**

Text: **Daniele Ricci**
Music: **Daniele Ricci**

You were hiding in the cellar, you were frightened by the bombs,
The bible was the book you read.
Jesus wanted everyone to be a family
You listened to the words he said:

*"May they all be one, oh may they all be one!"
So we have to love, so we have to love. Love and the world will be one!*

Chiara, you wanted unity too
Jesus's prayer is your own
Chiara, you showed us what to do
So we can help everybody be one!

People east and people west and people here and there
People that are big and small
People like a family that's growing everywhere
Taking love to one and all

*"May they all be one, oh may they all be one!"
So we have to love, so we have to love. Love and the world will be one!*

Chiara, you wanted unity too
Jesus's prayer is your own
Chiara, you showed us what to do
So we can help everybody be one!

Africa, America and India and Paris!
You are loved by every race!
Always helping everyone to be a family!
You are loved in every place

*"May they all be one, oh may they all be one!"
So we have to love, so we have to love. Love and the world will be one!*

Chiara, you wanted unity too
Jesus's prayer is your own
Chiara, you showed us what to do
So we can help everybody be one!
(x2)

Translation of the original "Chiara tu vai nel mondo"
